SURAJ KUMAR

JOB OBJECTIVE

To leverage expertise in full stack development, front-end engineering, back-end architecture, cross-platform application development, cloud technologies and performance optimization to design and deliver scalable, secure and high-performance web applications that drive business value, improve efficiency and enhance user experiences.

CORE COMPETENCIES

Full Stack Development

Front-end Development & UI Engineering

Back-end Engineering & API Development

Application Performance Optimization

Cloud Infrastructure Management

System Design & Architecture

Technical Leadership & Team Mentoring

Software Quality Assurance

Agile Software Development

Cross-Functional Stakeholder Collaboration

TECHNICAL SKILLS

- » **Front-End Technologies:** React.js, React Native, Angular, Next.js
- » **Back-End Technologies:** Node.js, Express.js, Nest.js, Spring Boot
- » **Databases:** MongoDB, PostgreSQL, Cassandra
- » **Cloud Technologies:** AWS, Google Cloud Platform (GCP), Microsoft Azure, DigitalOcean, GoDaddy, Hostinger
- » **Containerization & DevOps:** Docker, Jenkins, Kubernetes

PROFILE SUMMARY

- » Full Stack Engineering professional with nearly 10 years of experience designing, developing and scaling web and hybrid applications across Fintech and Enterprise domains.
- » Expertise in React, React Native, Next.js, Angular, Ionic, Node.js and Nest.js, with strong capabilities in system design, API development, cloud technologies and application architecture.
- » Track record of building scalable, high-performance platforms, optimizing back-end systems and implementing secure authentication frameworks that improve reliability, user experience and operational efficiency.
- » Scaled production applications supporting 10K+ active users through performance tuning, caching strategies and database query optimization.
- » Experienced technical leader with a strong background in team mentoring, code reviews, Agile delivery and cross-functional collaboration, enabling the successful delivery of business-critical solutions.
- » Skilled in cloud infrastructure, DevOps practices, observability, performance engineering and problem-solving, delivering measurable business impact through technology-driven innovation.

WORK EXPERIENCE

Senior Software Developer | Let's Us Code (Remote) | Jul'2024 –

Jun'2026

- » Led end-to-end development of scalable web applications using React Native, Node.js and modern JavaScript frameworks, delivering solutions aligned with business and client objectives.
- » Designed and enhanced back-end architectures, APIs and application workflows to improve scalability, reliability, system performance and user experience.
- » Established engineering best practices through code reviews, automated testing, CI/CD pipelines and performance monitoring, improving application stability and maintainability.
- » Collaborated closely with product, design, QA and engineering stakeholders to define roadmaps, prioritize features and mentor developers on coding standards and system design principles.

Highlights:

- » Led development of a high-traffic platform supporting 10,000+ active users, driving increased product adoption and user engagement.
- » Implemented secure authentication mechanisms, real-time data processing capabilities and performance optimization initiatives that improved application responsiveness, reliability and user satisfaction.

Lead Developer | Dhani Loans & Services (Remote) | Mar'2022 –

Mar'2024

- » Led development of the Dhani Stocks platform, including trading, onboarding and reporting modules, successfully supporting rapid user growth and scaling the platform to 10,000+ active users.
- » Managed and mentored an 8-member engineering team, driving Agile delivery, improving code quality and fostering collaboration across product, QA and business teams.

- » **Monitoring & Logging Tools:** ELK Stack, Nagios, Loki
- » **Version Control & Collaboration Tools:** Git, Bitbucket, Jira

EDUCATION

- **Bachelor of Commerce**
B.E. Computer Science & Engineering
RGPV, Bhopal
2010 - 2014

ACHIEVEMENTS

- 🏆 Scaled Dhani Stocks to 10,000+ active users with high availability.
- 🏆 Delivered production-grade React and React Native applications.
- 🏆 Built secure authentication and authorization systems for fintech platforms.

- » Architected and optimized APIs, database queries and back-end services, reducing latency, improving system throughput and enhancing platform reliability.
- » Implemented secure authentication and authorization frameworks while enabling analytics-driven capabilities to support compliance requirements and business insights.

Software Developer | Altruist Technologies, Bangalore | Feb'2021 – Mar'2022

- » Developed enterprise-grade banking applications using Angular and Spring Boot, supporting critical financial workflows and regulatory requirements.
- » Designed and optimized REST APIs and PostgreSQL queries, improving application responsiveness and data-processing efficiency.
- » Implemented secure coding practices and data-protection measures, strengthening application security and operational resilience.
- » Collaborated with compliance, product and engineering teams to deliver audit-ready financial modules and enhancements.

Software Developer | Artbug Design, Gurugram | Jan'2019 – Feb'2021

- » Developed and maintained web applications using MERN and MEAN technologies for diverse client engagements.
- » Redesigned user interfaces and application workflows, improving usability, responsiveness and overall customer experience.
- » Refactored legacy codebases and resolved performance bottlenecks, enhancing maintainability and application efficiency.
- » Contributed to successful production releases through active participation in Agile development and deployment cycles.

Software Developer | Keen & Able Pvt. Ltd., Gurugram | Jul'2016 – Jan'2019

- » Developed scalable MEAN-stack applications aligned with customer requirements and business objectives.
- » Implemented ELK-based logging and monitoring solutions, improving observability, incident analysis and production support capabilities.
- » Collaborated with QA and development teams to strengthen testing processes, enhance product quality and reduce post-release defects.
- » Participated in application design, feature development & production support activities throughout the software development lifecycle.

PERSONAL DETAILS

Date of Birth : 4th February 1990
Languages Known : English, Hindi, Bengali
